Mr. J. C. Patterson
Branch Manager
Environmental Compliance
Department 891C, Bldg. 305, L-4W
McDonnell Aircraft Company
P. O. Box 516
St. Louis, Missouri 63166

Dear Mr. Patterson:

This is in response to your letter of August 1, 1984, requesting to begin operation under permit #OSO-062284-002.

In accordance with your request, the department conducted a facility inspection on August 30, 1984. Mr. Joe Jansen, Mr. Joe Haake, and I were present for the inspection. As a result of that inspection the department is authorizing you to operate the facility under the conditions of permit OSO-062284-002 for the remaining life of that permit.

General Permit Condition 12., on page 7 of the permit, requires the permittee to comply with the financial requirements of 10 CSR 25-7.011(8). While the present financial mechanism clearly meets the intent of the regulations, some wording has been changed in the regulation since your filing of the mechanism. The next time the mechanism is renewed, the mechanism shall meet the letter and intent of 10 CSR 25-7.011(8).

General Permit Condition 13., on page 7 of the permit, requires a monthly report of facility activities be submitted in accordance with 10 CSR 25-7.011(6)(C). Enclosed please find a format for your monthly report form, and a copy of the McDonnell Douglas Electronics Company's monthly report form. You may amend the department format to make it more site specific, as McDonnell Douglas Electronics Company has done; however, the storage location should be defined on your monthly report form. The first monthly report form is due on October 15, 1984. Please provide a copy of your proposed report form to the department by September 21, 1984, for approval prior to the October submission.

If you have any questions concerning permit conditions, or compliance with the permit, please contact me at this office.

Sincerely,

John D. Doyle

John D. Doyle, P.E.
